**CONSTANCE HALAVELI SUCCESSFULLY REOPENS, RECEIVING TOP REVIEWS
FROM GUESTS AFTER A LUXURIOUSLY SAFE STAY!**

The five star Constance Halaveli hotel in the Maldives has successfully reopened to guests with new measures in place to ensure that it is a secure environment for everyone, while still maintaining its very special atmosphere.

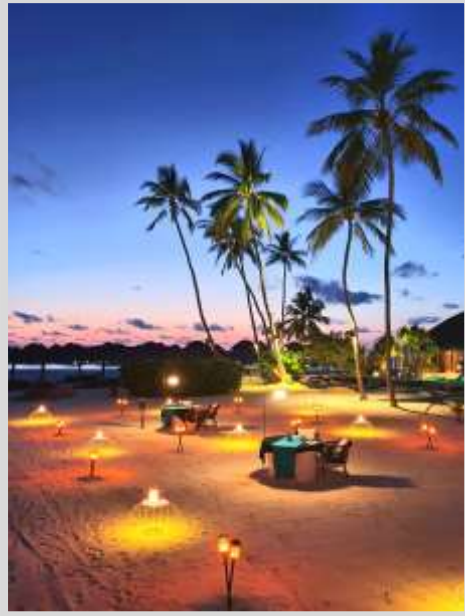

This has been confirmed by the first guests who have written glowing reviews on Trip Advisor. One says 'We stayed at Constance Halaveli for our honeymoon and were the second set of guests to arrive for the reopening...Our stay was incredible and we could not recommend this place more!'

Referring to the new measures in place to safeguard against Covid 19 he writes 'We thought the resort did an excellent job of managing the precautions needed to provide a safe but enjoyable experience. A negative PCR test was required of all guests 72-96 hours before arrival. We didn't have any problem getting one and appreciated that all guests were tested before arriving. All of the staff wore masks the entire time we were there. And we do mean everyone and the entire time. Even maintenance staff that were working in the ocean.

Temperatures were taken with a laser thermometer every morning at breakfast and we were asked if we were feeling any symptoms. The staff did a great job of social distancing themselves as well and there was hand sanitizer placed everywhere. We felt way safer from COVID on this island than we would have anywhere else in the world. An island is the perfect situation to create an infection free bubble.

The guest sums up his review by saying *'We can't recommend this resort enough. It's an incredible island but the staff is really what puts it in a class of its own....It truly can't get any better than this!'*

Constance Halaveli is a naturally social distanced hotel, set on its own spacious island with all the villas set well apart and totally private with their own pools. Meals can be taken anywhere on the island so you can choose to eat on a private stretch of beach or on your own terrace with views out over the Indian ocean - or even on an isolated sandbank out in the sea!

Constance has developed its own 'Constance Stay Safe' protocol throughout all its hotels. The measures, validated by SGS, an international inspection and certification company, comply with the directives of the World Health Organization and local health authorities. The establishment of a secure environment for all guests as well as their teams remains the top priority of the group.
