A trend event in the Indian ocean

In June 2022, professional kitesurfers will meet in a relaxed atmosphere for the C Kite Festival at C Mauritius

Mauritius – Boarding across the ocean at high speed and skilfully overcoming the next wave: what looks so effortless is in fact the result of extremely hard training by kitesurfers. At the beautiful C Mauritius, you now have the opportunity to see the trendy kite art up close or to venture onto the turquoise blue sea yourself. The location in the east of the island is perfect for this and the day time events are accompanied by a casual supporting programme. Because true luxury here means spending time freely and without any worries – just like when we were a child.

Kitesurfing is picking up speed

With a small board under their feet and a kite in their hands, the surfers float over the ocean: kitesurfing has developed into one of the biggest trending water sports, even though the sport itself has only existed for 30 years. It is probably the mix of speed and balance that gives kitesurfers a special adrenaline kick and entices more and more people to get on the board - competing in hotspots across the world. Since the development of kitesurfing has been rapid in recent times, you can now sweep over the water with kite foiling, using a soft foil kite or with wind foiling - a mixture of windsurfing and kiting.

#CKiteFestival from June 23rd to 27th, 2022

The Kite Festival at C Mauritius celebrates these sporting moments in the summer of 2022 with the world's top kitesurfers. The French kitesurfing expert and TV presenter Antoine Auriol will be the host of the event. Professionals, locals and resort guests will be taking part in kitesurf, kitefoil and windfoil sessions. Festival-goers can calmly try a kiteboard themselves or watch the impressive skills of the champions in live demonstrations. Guests include the two-time kitesurfing world champion Youri Zoon and the pro kiteboarder Victor Hays. The C Kite Festival is enhanced by a special evening programme including a concert on day two, cinema under the stars with cocktails and buffet on day three and a closing dinner on the last evening.

The perfect location

Palmar - the home of C Mauritius - offers the ideal conditions for the #CKiteFestival, set on the east coast of Mauritius. And the timing of the festival is also right: the trade winds are strongest in the season from April to October. On top of that, visitors to the kite event in the clear Indian Ocean can expect extremely pleasant water temperatures, a dream beach to relax on and plenty of sunshine.

C Mauritius: Excellent ambiance

For guests at C Mauritius, the modern lifestyle and atmosphere is immediately noticeable. In the midst of the magnificent natural scenery, the cheerful hotel team always strive to ensure that travellers have fun and find time to feel free. The innovative, refreshing concept has just been awarded the Tripadvisor Travelers' Choice Award 2022 as one of the best all-inclusive resorts in all of Africa - showing how the positive vibes are very much part of C Mauritius.
